

ENVIRONMENT & SUSTAINABILITY POLICY - 2022/23

CB Civil acknowledges their responsibility to minimising impact, protecting, enhancing and adding value to the environment & the communities in which we work

To achieve this CB Civil commits to:

- Striving to achieve a level of environmental performance, which goes beyond industry standards and the minimum legal compliance requirements
- Promoting environmental awareness among all employees and those working on our behalf to identify and act upon opportunities to prevent pollution and to minimise any adverse environmental impacts and issues associated with their roles and responsibilities
- Ensure environmental considerations through the development and annual review of environmental objectives and targets and informing staff of these requirements, and any changes to regulations and legislation, as they occur
- Conducting our operations in a sustainable manner that ensures work practices give the required consideration to the environment by reducing, reusing, recycling, and disposing of waste safely, to minimise pollution and environmental impact
- Developing innovative engineering & sustainable solutions in our work which aims to reduce our carbon footprint, and providing positive outcomes for the environment and communities in which we work
- Identify and implement ways to improve the efficiency with which we use resources
- Complying with the environmental policies of the clients for whom we work.
- Implementing rehabilitation & protection practices that limit the potential for erosion and land degradation.
- We will ensure we put controls in place to minimise dust and noise in accordance with industry best practice.
- Protect our river waterways by not allowing harmful wastewater or sediments to enter our storm water drain systems.
- Proactively contributing to, and engage in our local communities through tangible consideration and contribution
- Acknowledging Manu Whenua and our responsibilities to protect and add value through our work
